A Horrible Affair.
SEATTLE, W. T., August 22.
Charles Emerson, a half demented individual on Orcas Island, committed suicide some days ago. Being missed, his neighbors went to his home, and there a horrible sight met their gaze. Emerson had evidently shot himself with a rifle, and after death the hogs had broken into the house and mangled the body, devouring the flesh, crunching the bones, etc. He was a bachelor, about 40 years of age, and at one time was an inmate of the Territorial Insane Asylum.

At the Arlington, 127 Kearney St., San Francisco, Cal., resides Mr. Hoover, the renowned counterfeit detector and teacher, who says: "For more than twelve years I suffered with sciatic rheumatism of the very worst type, and at times the pains were almost unendurable. I spent a fortune and exhausted medical skill at that time. I heard about St. Jacobs Oil, but was faithless as I thought my ailment was ineradicable. I made one very thorough application and so pronounced was the relief that I continued its use. Before I had used up the first bottle I was well."

DE LONG'S BODY.

The New York Herald says that metallic burial caskets will be immediately sent to Russia for the transportation of the bodies of the Jeanette's dead to this country. An officer of the Metallic Case Company said, on receiving the order: "We propose that the bodies be taken as they now are (frozen), and wrapped in felt and packed in cork-dust in the metallic caskets and permanently sealed. Then wrap the casket in felt and then pack the box in cork-dust; also cover the box with felt. We believe the calorific from the outer air cannot penetrate to the frozen body, and if it did by long exposure so penetrate, that the bodies would not to any great extent be affected, by reason of their being in perfectly air-tight receptacles, where no moisture could be evolved to aid the thawing process; and they must, of course, remain in this frozen state for an indefinite period.

"The proposition to take the bodies to St. Petersburg and thence and then embalm them cannot but result unfavorably. We believe that the process of thawing the bodies will of itself commence and hasten decomposition, which cannot be arrested by any embalming process. The process of embalming, under the most favorable circumstances, has proven ineffective, as in the case of President Lincoln, who had to be removed to an air-tight metallic casket, and more recently the whole nation was shocked and grieved at the result in President Garfield's case, and only found relief when the remains were taken from the wooden receptacle, and embalming being ignored, placed in the bronze casket."

EDITORIAL NOTES.

Thirty-four Republicans of Chemung county, New York, have united in signing an address, worthy of being copied everywhere, in which they "earnestly request every Republican in the county, regardless of his preferences, to take pains to ascertain where the caucus in his town or ward is to be held, and to attend the same; and see that the caucuses are honestly and fairly conducted, and that only Republicans vote."

A resident of Lexington, Ky., being importuned to subscribe for one of the daily papers of that city, consented to take it if the publishers would send him the sheet blank. They agreed, and it goes to him regularly unprinted. He carefully keeps it on file, and pays for it with punctilious exactness. Persons importuned to subscribe for Democratic papers elsewhere may find a useful hint here.

There was completed, July 22, at Marine City, Michigan, a well which passed through 115 feet of solid crystal salt. Salt was encountered at a depth of 1,633 feet, and from that point to the depth of 1,748 feet the material removed was pure salt.

It is said that, with the exception of a bill lately passed to audit certain war claims which have remained unrecognized and uncancelled for 20 years, the State of Nevada has never received \$1 of the United States Government's bounty.

A movement is on foot in Cleveland, Ohio, especially among the Freemasons, to raise a fund for the care of the graves of the three hundred Confederate soldiers buried on Johnson's Island, and to erect a monument to their memory.

During the week ending August 19, the Mints issued 289,000 standard silver dollars.

The Republicans of the Fourth District of Ohio have nominated Judge J. S. Cenkling for Congress. The Prohibitionists of the Twelfth District have nominated Daniel Hill, and the Republicans of the Thirteenth District have nominated H. C. Dunle.

The Texas State Republican Convention meets to-day in Austin. A stormy time is expected on the question of supporting the Independent movement or nominating a straight ticket. The independent idea seems to be in the majority.

TO-DAY'S NEWS

Press Dispatches in EVENING GAZETTE.

EASTERN DISPATCHES.

Railroad Complications.

CHICAGO, August 23.

The statement is made here that trouble is brewing between the Chicago and Omaha road as the result of opening the Council Bluffs line of St. Paul road. The other four lines between Chicago and Omaha pool their traffic. It was expected that the St. Paul would ask to come in, but it has not yet done so; meantime it is running daily through live-stock trains eastward. It is said the pool lines have discovered that this line is getting the lion's share of the business from the live-stock trains of the Union Pacific road. It is now called to mind that statement about the time of opening the new line, that the U. P. Co. had contracted to deliver all its live-stock traffic to the new line, and it is said the poolers have reason to believe that a contract for this traffic for the entire season has been made between the two companies. On the other hand it is stated that the concentration of traffic on the new line is a protest from the shippers, who are opposed to the pooling arrangement. If this state of affairs continues a break in rates is inevitable, and with a break in live-stock, grain rates must follow, and war will be the result. Agents have been sent to point out the trouble and to examine and report. It is believed the present state of affairs cannot be maintained many days.

The National Prohibitionists.

CHICAGO, August 23.

The National Prohibitionists Convention met in Farwell Hall this morning at 10 o'clock. Some 300 delegates were present. Some States were represented very largely, and some of the more distant ones not at all. Gideon Stewart of Ohio, Chairman of the National Prohibition Reform Executive Committee, called the Convention to order, and in a brief speech said that in many localities and States the Prohibitionists had burned their bridges behind them by cutting loose from other parties which had arrayed the North and South against each other. The Prohibitionists wanted a party of honesty and honor, and they wanted the burial of these crime-stained and blood-stained parties. Rev. John Russell, of Michigan, was elected temporary Chairman. He also spoke, favoring a grand national prohibition party.

The President's Tour.

NEWPORT, R. I., August 23.

President Arthur, accompanied by Secretary Frelinghuysen, Attorney-General Brewster, General Hancock, Mrs. Frelinghuysen and Mr. and Mrs. Marshall Jewell, arrived in the steamer Eolus last night. The President was met at the wharf by ex-Governor Morgan, of New York, whose guest he will be during his visit. There were no formalities, the President simply dining with Governor Morgan and his family. To-morrow he will visit Fort Adams.

A Trot for Big Money.

CHICAGO, August 23.

Messrs. White and Doble, of California, owners of Monroe Chiel, a short time ago issued a challenge, offering to trot their stallion against Von Arnim, owned by Commodore W. N. Kittson, of St. Paul, for \$2,500 a side. Budd Doble announces that the challenge has been accepted and that the race will take place at Minneapolis during the Fair week, in September. Colonel King adds \$2,500, making the total to be contended for, \$7,500. The race promises to be a sensational one, on account of the noted character of the horses concerned and the prominence of their owners.

A Knightly Display.

DETROIT, August 23.

The Supreme Lodge of the World of Knights of Pythias convened here to-day. There is a grand gathering of the members of the order from all parts of the country. Up to midnight 1,500 Knights had arrived, and as many more are expected. There will be a grand parade this afternoon, and to-morrow a prize drill.

Arkansas Convicts.

LITTLE ROCK, August 22.

Near Kaufman, on Monday, two convicts, working with a gang on the Texas Central railroad, seized Winchester rifles from the guards and escaped into a thicket. A party of armed men with bloodhounds in pursuit overtook the convicts. A fight ensued, in which two of the posse were dangerously wounded, but the convicts escaped unhurt. They are still at large, but are being pursued.

Shadowing Suspected Murderers.

MR. POLLOCK, Ill., August 23.

Evidence multiply that they were accomplished murderers who perpetrated the triple tragedy at McMahon's farm. The farmers have a well-organized search in progress and will ransack the country. The arrest of

Rush last night was more of precaution than anything else. Suspicion is directed against one Hall, a desperado resident, who has been much reduced lately and been working out. He knew McMahon well, being distantly related. His actions and record are suspicious. J. A. Peltz and Oliver Hall, his brother, are also suspected. None of them have been arrested, but all are shadowed.

That Terrible Negro Conspiracy.

NEW YORK, August 23.

The Tribune thus editorializes its special telegram about the so-called negro revolt in Alabama: "The fabulous account is taken to pieces in our Washington dispatches. The county where this secret league is said to have been in existence for several years is a black district, where a strong anti-Bourbon candidate is running for Congress. If colored voters are not intimidated, another seat may be lost. Accordingly recourse is to be had to the old methods of intimidation. Documentary evidence of the conspiracy is manufactured about as easily as tissue balloons."

A Deadly Outrage.

HANNIBAL, Mo., August 23.

Two negroes, Liberty Kennedy and Edward Murphy, brutally assaulted a little white girl, six years old, named Dora Kimball, in the suburbs of the city, and were caught in the act by D. H. Courtney. Murphy was captured by Courtney and a great crowd of excited citizens turned out to hunt Kennedy. After a long chase he was captured and lodged in jail. Relatives of the outraged girl made an ineffectual attempt to kill him. Both of the prisoners will have an examination to-morrow, when it is thought they will be lynched.

A Texas Affair.

GALVESTON, August 22.

The Athens News says: A man named Lightfoot rented his farm to a negro, who made a splendid crop. He invited the negro to fish, after which the negro's body was found in a creek, with his head and hands cut off and three bullet-holes in the head. It is supposed that Lightfoot killed him for the crop, as he claimed a bill of sale. Officers are in pursuit.

Yellow Jack.

BROWNVILLE, Tex., August 23.

Fifty-four new cases of yellow fever are reported to-day and four deaths; the latter all Mexicans. The troops at Fort Brown are in excellent health. Nine deaths at Matamoros, but few new cases, and those confined to the suburbs. The weather is very fine.

A Stalwart Indian Triumph.

CHICAGO, August 23.

An Indian Territory special says the election of Overton for Governor is a great triumph for the Stalwart Indian element as against outside frauds in violation of treaties. He has been Governor four years, and the nation has made great strides during that period.

FOREIGN TELEGRAPH.

EGYPT'S TROUBLE.

CONSTANTINOPLE, August 22.

The Vakit has been suppressed for publishing news hostile to the English.

ISMALIA, August 22.

The landing of the troops from the transports proceeded actively all night, and continues to-day. The orderly behavior and general bearing of the soldiers, are the admiration of the entire population. General Sir Garnet Wolseley visited De Lesseps yesterday and explained the action of the British in regard to the Suez canal. He said everything would be over in a few days; but that the English must use the canal. De Lesseps expressed himself fully satisfied with Gen. Wolseley's explanation, and said he regretted that there had been any misunderstanding.

Yesterday afternoon the 72nd regiment engaged the enemy at Serapeum and repulsed them. Two of our men were killed and five wounded. The enemy lost 100 men and five guns.

CONSTANTINOPLE, August 23.

Two Austrian Lloyd steamers with Turkish troops on board passed Rhodes, steering southeast.

Honored Pasha, formerly Egyptian Minister to France, on invitation of the Khedive, will start for Alexandria by special steamer.

LONDON, August 23.

A Daily News dispatch, dated Suez, August 21, says: Four hundred men of the Seventy-second regiment left this morning for Serapeum. When they reached that village they found it deserted, and the railroad stock carried off from the end of Bitter Lakes. The enemy in large numbers were three miles off and retreating north. The Highlanders who participated in the fight at Shaluf yesterday occupied a fresh water canal lock at Serapeum, an important position from which the enemy retreated. Prisoners taken state that Arabi forced them to fight, threatening to have them shot if they refused. They say the chief officers fled soon after the action began. The success of the British forces at Shaluf and the energy displayed by them in searching the coast towards Ismalia, demoralized the enemy. Opposition on this

side of the canal may be considered ended.

ALEXANDRIA, August 23. The Austrian gunboat Nautilus, bound from Port Said to Alexandria, passed Aboukir Monday. The commander seeing a white flag flying at the Aboukir forts supposed the British were in possession, and sent a boat ashore with officers and 12 men, who were made prisoners by the Egyptians.

PORT SAID, August 23. Natives are returning and resuming work. It is reported from Ismalia that a force of the enemy numbering about 3,000 troops have taken up a position ten miles distant from there. The disembarkation of troops will be completed to-morrow.

ISMALIA, August 22. Arabi Pasha was here three days ago and dined with De Lesseps. He reported his troops at Tell el Kebir, strongly entrenched. Seven more of Arabi Pasha's officers surrendered on Tuesday. They allege that many more officers and men would surrender, but are afraid, owing to Arabi Pasha's spreading reports that the English shoot all prisoners.

The smoke of numerous trains is again visible behind the enemy's lines. The activity of Arabi Pasha has increased in a manner indicating a complete change in his plans. In answer to our reconnaissance to-day his guns opened fire from various directions, showing that during the night the enemy's artillery had been much strengthened. A new battery with six guns has been placed in position. It now seems that at the first scare caused by the discovery that the fleet had gone to the canal, Arabi Pasha withdrew that portion of his infantry to Dammanhour, but that last night, considering that some time must elapse before an advance could be made from Ismalia with sufficient force to carry his defenses in a line up to Saigizig, he again advanced to his old position, which he hopes to hold until a rise of the Nile enables him to flood the country.

Jealous Cannocks.

KINGSTON, Ont., August 23.

The Fishery Inspector has stopped Americans from fishing in Canadian waters. A number of steam yachts and small boats have been operating in the vicinity of Wolfe and Simcoe Islands. The Inspector informed them they had no right there unless licensed. Some tourists declined at first to move, but did so on a threat being made to compel them to do so and their boats confiscated.

Berry and Melville.

ST. PETERSBURG, August 23.

Lieutenant Berry, who commanded the Rogers, and Engineer Melville, of the Jeanette, will be received by the Czar this afternoon. They start for home to-morrow.

WESTERN TELEGRAMS.

Arizona Republicanism.

SAN FRANCISCO, August 23.

A Tucson dispatch gives the following synopsis of the Republican platform adopted yesterday at the Territorial Convention: It declares allegiance to the National Republican platform of 1880. It holds that all railroads and corporations should be subject to the people through legislation; declares in favor of maintaining free public instruction; holds that appropriations for the support of hostile Indians is too great, and that hostile tribes should not be kept fed and supported by the public treasury, and is in favor of disarming them; declares against Chinese immigration; claims that a reorganization of the judicial system is necessary; demands that Territorial and Federal legislation should be had to discourage mining litigation and to render mining titles more secure; declares in favor of free and unlimited coinage of silver upon the same terms and under the same regulations as is gold.

A Murderous Negro.

VISALIA, Cal., August 23.

To-day Ben Harris, a colored man living near here, shot and mortally wounded his wife, killed his step-daughter 14 years of age, and severely wounded another step-daughter aged 10, with an axe. Harris escaped before news of the tragedy reached town. Thirty men are in hot pursuit of the murderer.

Nevada Fruit.

The Silver State says that the pear trees on John Guthrie's ranch near Winnemucca are so loaded down with fruit that much of it has to be plucked from the limbs as an unripe state to prevent the trees from breaking down.

Louis Dean returned last night from Granite creek, where he had been to start 500 cattle on the way to California. He left them at Webber lake, making good progress. The band will reach Stockton in about two weeks.

Kinkadee's Grander.

Another Kinkadee quartz grinder is nearly completed at the Reno foundry, and will be in running order in a few days. That in operation at the J. & K. mine at Pyramid is 36 inches in diameter, and though it works well, and can pulverize rock at the rate of a ton an hour, a practical test of its capacity has suggested several important improvements, which have been embodied in the mill now in course of construction at the foundry. It has been demonstrated that three inches of grinding surface outside the corrugated interior will do as much pulverizing as the sixteen inches of the original machine, and the new apparatus has accordingly been cut down to a diameter of 23 inches, thus making a great saving in material and weight, and consequently reducing the cost of the apparatus. The grinder is destined to become popular, as it is the handiest and cheapest mill ever devised.

The Antelope Mine.

The Antelope is looking particularly well, and is actually a good and reliable mine. The developments in the lower levels are such as to warrant great hopes regarding the future of the property. The mill is being improved and additions made to it. Two new pans and a settler are being put in place, and other improvements made to increase the capacity of the works. A GAZETTE reporter is informed that a Kinkadee grinder will be shortly added to the plant. The ore of the Antelope is peculiar in character, a great portion being a limy quartzite, but it contains lots of free gold, notwithstanding its hungry aspect.

An Encouraging Neighbor.

The Record-Union says: "The ninth annual fair of the State of Nevada opens at Reno October 2. The local papers say the prospect is good for an excellent exposition. California has such close commercial relations with the Silver State that her citizens should feel it a duty to encourage the people of Nevada in all proper ways to make their annual exhibit of the industries and products of the State a success. Heretofore California has exhibited fairly in these annual fairs. This year the hope is expressed that our State will occupy still more space in all the departments of the fair."

Professor Perkins.

Professor H. S. Perkins, with whom Renosites are well acquainted, has been holding a grand musical festival at Clear Lake, Iowa. A correspondent of the GAZETTE says the Professor is meeting with great success in his profession in the Northwestern States, and that he will re-visit Reno ere many months.

A Free Show.

Mons. Prescott will give a free show to-morrow evening. He will walk a tight wire stretched across the street from the theatre building to the Palace Hotel. If he don't fall and break his neck it will be a successful exhibition.

Movement of Beef.

W. B. Todhunter shipped 800 head of cattle, and Colonel Hardin shipped 160 head, from Winnemucca to San Francisco Monday.

FROM THE LAKE.

Desultory Squibs From Beautiful Tahoe—A Fierce Appetite.

ROLANDS, August 22.

Ed. GAZETTE: I have been fishing away over on the first summit; found the weather a little cold, but the mountains just as grand and majestic as ever—"rocks of ages" that never change. The view from the summit back over the valley once seen will never be forgotten. The blue waters of our lovely lake look so near, and yet so far away. We went fishing, a lady friend and a man, for the fish won't bite and the boat won't go without a man along (a necessary evil). We caught three kinds of fish. Those in Echo Lake are like those caught in Lake Tahoe, only smaller. In the Tom Odrain Lake they are more like salmon. The meat is red; they are delicious. And the last, but not least (unless you measure by inches, as they range from three to five inches in length), are the brook trout caught in the American river, to be rolled in flour, cooked brown and eaten whole. We ate 27, but then we were small eaters. Some people never know when to stop. There is nothing new at Tallac, except faces, as the friends that I know have gone. New-comers everywhere; five new campers, too, but I have not interviewed them yet. Mr. Roland is making preparations for his annual ball. It will be on the 31st of this month. The Taylor band, of Genoa, will furnish the music.

SUSAN JANE.

Hank's Peril.

Horace Greeley's famous stage driver, Hank Monk, whom everybody about Reno knows, is now employed on the proposed line of the Northern Pacific, in Montana. A particularly bold but inexperienced road agent undertook to stop his coach the other day, but Monk whipped up his stage and dashed off with five bullets flying after him, one of which struck a horse. The animal did not, however, break down till the stage reached a freighter's camp. The above story is spoiled by the San Francisco Post, which thus robs Hank of much glory: Monk is not now, nor has he ever been in Montana. He drives over the route from Carson to Glenbrook (Lake Tahoe), on which line he has been driving during the season for ten years past. He receives an extra salary from the hotel proprietors on the lake for inventing outrageous lies for the benefit of tourists. And the Post might well add that it was on this same Tahoe road that Hank, for the first time in his life, upset a coach, last Summer.

A Devil on Wheels.

A short time ago we had a locomotive in Reno whose fiendish whistle tore to tatters the ears of everyone within a radius of a mile of the depot. Farmers complained that they could raise no chickens because their eggs were added by the howling of "216." The engine became such a nuisance that it was ordered to Sacramento, where the shrieker was replaced by a modest squeaker. Now we have another locomotive here. Yard engine No. 48 blows off steam at intervals of one or two minutes, making a frightfully distracting uproar, like an old-fashioned watchman's rattle, multiplied by a million. The Con. Virginia mill making 200 clips a minute would be graveyard silence in comparison. All persons along Commercial Row will endorse the assertion that the 48 is a monumental nuisance.

The Missing Convict.

George H. Marsh, who escaped from the State Prison last Saturday was convicted at Winnemucca last Spring of house-breaking, and sentenced to two years. Marsh is five feet seven inches in height, weighs 158 pounds, gray eyes, light-brown hair, small scar on forehead, scar in left eyebrow, four fingers on left hand scarred and crooked under, age about 22 years, two vaccine marks on right arm, mole under right arm, badly sunburned. He had on a light suit of clothes, stolen. A reward of \$100 is offered for his capture by Warden Garrard. Marsh was one of the Lovelocks car-breakers. At last accounts nothing had been heard of the runaway at Carson by the State Prison authorities. It is not probable that he will be captured, as he has been at the prison long enough to thoroughly learn the art of making tracks.

Prison Work.

Warden Garrard intends to make a good display of boots and shoes of prison manufacture; also, samples of work by the prison stone cutters, at the coming fair. The exhibition is not made for the purpose of competing for a prize, but simply to show taxpayers what is being done at the penitentiary. It is a good idea and it will surely be a very creditable showing.

Tony Aborigines.

Four stalwart Putes left their linen ulsters at a China wash-house on Commercial Row yesterday to be cleansed of the Summer's accumulations, and ordered the tails of the garments to be starched and fluted like a Spanish woman's petticoat.

News From Washoe.

[Carson Appeal.]

Yesterday Gus Lewis received the following telegram from W. M. Boardman, of Reno: "Primaries Saturday resulted in a victory for me against the Evans-Powling combination."

LASSING A DEER.

Jack Campbell's Fearful Chase of a Feroceous Buck.

Jack Campbell, of the Hot Springs Hotel, about 40 miles from Reno, had a wild adventure last Monday, which came near winding up with a Coroner's inquest. He was riding over a very rough country, when a huge buck sprang up in the trail ahead of him, and started off at a flying gait. Jack slapped the steel to his animal and went in pursuit of the fleeing venison. Up hill and down dale they went—through brush and across creeks—until they came to the edge of a very steep precipice, where the buck halted for a second as if dismayed by the deep chasm before him. That lost second caused him his life, as Jack came upon him and flung a lasso over his horns. Before the horse could get his balance and brace himself, the buck jumped over the bluff, and down into the ravine went the whole party. Stunned for an instant, they picked themselves up, and the soiree began. The infuriated buck charged upon Campbell, who was tied up in the lasso, but he managed to get a good hold of the animal's horns and protect himself from serious injury until he had got out of the snarl, when he jumped upon his horse and dragged the deer to its knees. The well-trained vaquero-horse held the deer down, while Jack cut its throat. Louis Dean brought one-half of the animal to town, as evidence that Campbell tells a straight story about the affair.

A Bodie Flyer.

W. D. Hamilton of Bodie has entered a Mono county mare for the State Fair races. He will put her in among the fast ones, and hopes to make a good showing of speed. The animal is now in training at the track. As everything connected with Bodie is fast, Mr. Hamilton is in high hope of winning something.
